

NICOLAS MASTROPASQUA

Buenos Aires, Argentina. nmastropasqua@dc.uba.ar
<https://nicomastro.github.io/>

EDUCATION

PRESENT 04/2023	PHD IN COMPUTER SCIENCE Facultad de Ciencias Exactas y Naturales, Universidad de Buenos Aires (UBA) Research topic: Applications of Face Analysis using Neuromorphic Computing in Driver Monitoring Systems Doctoral Scholarship, CONICET. Advisor: Professor Daniel Acevedo.
03/2023	COMBINED BSC/MSC IN COMPUTER SCIENCE Facultad de Ciencias Exactas y Naturales, Universidad de Buenos Aires (UBA) Grade Point Average: 8.91 / 10 (Average GPA of graduates in the program, 2016–2020: 8.16 / 10) Master's Thesis: A study of lightweight CNNs using Label Distribution Learning for Facial Expression

TEACHING

PRESENT 2023	GRADUATE TEACHING ASSISTANT - COMPUTATIONAL LINEAR ALGEBRA Dpt. of Computer Science, Facultad de Ciencias Exactas y Naturales, UBA
PRESENT 2022	INSTRUCTOR - CONCURRENT PROGRAMMING Dpt. of Technology and Science, Universidad Nacional de Quilmes
2022 2018	TEACHING ASSISTANT Courses: Algebra I, Computer Organization I, Operating Systems, Numerical Methods Dpt. of Computer Science, Facultad de Ciencias Exactas y Naturales, UBA

SELECTED PUBLICATIONS

Mastropasqua, N., Bugueno-Cordova, I., Verschae, R., Acevedo, D., & Negri, P. Event-based Liveness Detection using Temporal Ocular Dynamics: An Exploratory Approach. In 2026 IEEE 20th International Conference on Automatic Face and Gesture Recognition (FG).

Mastropasqua, N., Bugueno-Cordova, I., Verschae, R., Acevedo, D., Negri, P., Buemi, M. Event-based facial microexpression analysis using Spiking Neural Networks. 2025 15th IEEE International Conference on Pattern Recognition Systems (ICPRS)

Mastropasqua, N., Bugueno-Cordova, I., Verschae, R., Acevedo, D., Negri, P., Buemi, M. Exploring spatial-temporal dynamics in event-based facial microexpression analysis. In Proceedings of the IEEE/CVF International Conference on Computer Vision.

Tarsia, L., **Mastropasqua, N.**, Bisso, I. C., Heras, M. L., Burgos, V., Risk, M., ... & Cotik, V. AI-Assisted Bronchoscopy in the Intensive Care Unit: Corpus Development and an Application to Anatomic Position Identification. In Ibero-American Conference on Artificial Intelligence.

PRESENTATIONS

DOCTORAL CONSORTIUM - NEUROMORPHIC APPROACHES FOR ENERGY EFFICIENT FACE ANALYSIS IN DRIVER MONITORING SYSTEMS.

IEEE 20th International Conference on Automatic Face and Gesture Recognition (FG) - Kyoto, Japan - 2026

CO-INSTRUCTOR - TUTORIAL SESSION - FACE AND GESTURE RECOGNITION USING EVENT-BASED CAMERAS.

IEEE 20th International Conference on Automatic Face and Gesture Recognition (FG) - Kyoto, Japan - 2026

DOCTORAL CONSORTIUM - NEUROMORPHIC FACIAL ANALYSIS USING SPIKING NEURAL NETWORK.

IAPR/IEEE Latam Summer School On Advanced Biometric Techniques - Cancun, Mexico - 2025

SUPERVISION

MENTOR - UNDERGRADUATE RESEARCH INTERNSHIP

Real time bronchoscopy navigation using spatio-temporal models

Student: Jorge Szabo. Institute of Computer Science (CONICET-UBA). 2025 - Present

MENTOR - UNDERGRADUATE RESEARCH INTERNSHIP

High frequency event-based eye tracking

Student: Nicolas Carrasco. Institute of Computer Science (CONICET-UBA). 2025 - Present

CO-SUPERVISOR — MASTER'S THESIS

Real time bronchoscopy navigation using spatio-temporal models

Student: Axel Savizky. Supervisors: Prof. Viviana Cotik & Prof. Daniel Acevedo. FCEyN, UBA. 2025 - Present

CO-SUPERVISOR — MASTER'S THESIS

Broncoscopia asistida por IA en terapia intensiva: Desarrollo de un corpus y un enfoque para la indentificación de posiciones anatómicas

Student: Luciano Tarsia. Supervisors: Prof. Viviana Cotik & Prof. Daniel Acevedo. FCEyN, UBA. 2025.
